EFFECTIVE: November 27, 1995

B1. APPLICATION OF TARIFF

B1.1 General

This Tariff contains the regulations and rates applicable to private line services furnished by **BellSouth Telecommunication, Inc.** hereinafter referred to as the Company, and for private line services furnished by the Company in conjunction with a connecting company or other participating companies except as indicated in B1.1.A.3. and 4. following, over facilities wholly within or partly within and partly without the state between points or locations within the State of Kentucky. **BellSouth Telecommunications, Inc. should be substituted for all references where South Central Bell Telephone Company is used.**

(C)

Rates and regulations in this Tariff are applicable in connection with intraexchange services only in the following localities: Fork Ridge, Tennessee; South Fulton, Tennessee; South Guthrie, Tennessee; and South Oak Grove, Tennessee. Rates and regulations in this Tariff are applicable to the portion of the service furnished by this Company in connection with intraexchange channels between Louisville and New Albany, Indiana and between Louisa and points in Ft. Gay, West Virginia.

Rates and regulations in this Tariff are applicable in connection with interexchange services only in the following localities: Jellico; Jordan; and McCarr. Rates and regulations applicable in connection with intraexchange services in Jellico and Jordan are the same as those fixed for similar services in Jellico, Tennessee and Union City, Tennessee by the Tennessee Public Service Commission. Rates and regulations applicable in connection with intraexchange services in McCarr are those fixed for similar services in Matewan, West Virginia by the West Virginia Public Service Commission.

A. Facilities Of Other Companies

1. This Tariff contemplates the securing of facilities (and services) of other companies by the Company within exchange areas and at other places where the Company has no facilities available, in order that the Company may furnish to the customer a private line service between the specified stations.
2. Generally, the rates and regulations contained in this Tariff apply to the private line services over facilities furnished jointly by the Company and other companies as if the services are furnished in their entirety by the Company.
3. In those cases where the rates and regulations of connecting companies apply to the portion of the private line services furnished by such connecting companies, the point of connection with the facilities of the connecting Company is considered as a service point in determining the mileage and the rate applicable for the facilities furnished by the Company. The rates and regulations of such connecting companies are as established by these companies.

- B.** When an interexchange carrier (IC) certifies that it is providing an intrastate, interLATA private network switching function at its terminal location for the end user, the IC terminal location will be considered an end user premises for the purpose of applying the rates and regulations in this Tariff. The private line facilities between the private network switching function and other premises of the end user may be ordered by and billed to either the end user or the IC.
